

Prince2® Certification

OVERVIEW

The PRINCE2® Practitioner Certificate course is a comprehensive 5-day program that provides participants with an extended theoretical and practical knowledge of PRINCE2, the best non-proprietary practice model that ensures a project delivery is on time, on budget and of high quality. This course educates participants in all aspects of the PRINCE2 methodology, including its practical application. It covers the eight core components and Processes of PRINCE2 at a very detailed level, including all sub-processes and techniques. Exercises are based on real life case studies to ensure that participants learn the practical application of PRINCE2 theory.

PACKAGE HIGHLIGHTS

The course fee includes: tuition, all course material, examination fees, lunch and coffee breaks. Participants receive pre course preparation guidelines and the Prince2 manual upon application. Both the Foundation and Practitioner exams are held within a short time distance between them.
